INTERNSHIP

Backend Developer Intern – SKY360.AI TECH LLP (Sky360 AI)

Aug 2025 – Oct 2025 | Python, Django, DRF, pgAdmin, Postman

- Designed and developed scalable RESTful APIs using Django REST Framework for ERP modules, enabling seamless system integration.
- Implemented secure CRUD operations and optimized backend logic to enhance data handling and reliability.
- Utilized PostgreSQL and pgAdmin for efficient database modeling, query optimization, and data integrity.
- Developed automated reporting and print service modules, streamlining business workflows and project efficiency.

PROJECTS

ReCraftify – Online Classified Marketplace

Mar 2024 – May 2024 | Python, Django, DRF, SQL, HTML, CSS, JS, Bootstrap

- Built a full-stack marketplace for selling used/scrap items with secure CRUD APIs.
- Deployed a test version using Docker on AWS EC2 for demonstration and testing.

Summary: Full-stack classifieds platform with Python, Docker, and REST APIs

ZapShop – Full-Stack E-commerce Web Application

Nov 2024 – Dec 2024 | Python, Django, DRF, SQL, HTML, CSS, JS, Bootstrap

- Developed an end-to-end eCommerce solution with user roles, authentication, and shopping cart.
- Integrated REST APIs and implemented responsive design with Bootstrap.

Summary: Complete full-stack eCommerce solution with Django backend and dynamic frontend integration

Business Insights Dashboard with Python

Jul 2024 – Sep 2024 | Python, Pandas, Matplotlib, Power BI

- Performed data cleaning and visualization to derive business KPIs and trends.
- Created interactive Power BI dashboards for data-driven insights.

Summary: End-to-end data analysis and visualization pipeline with Power BI and Python

CERTIFICATIONS
